

# Environment, Health & Safety

Ultra Electronics Nuclear Control Systems recognises that it has a responsibility to ensure that we adopt stringent measures and procedures to maintain a safe and healthy environment for our employees, our clients and the community at large. In addition, we also implement an Integrated Quality System for both products and services that mitigates risk to the environment.

We continuously strive to minimize the impact of our activities on the environment. It's our objective to adopt an eco-friendly approach in all feasible day to day activities.

We maintain a working environment that is safe, without risks to health and provides adequate facilities and arrangements for all.

All reasonable precautions are taken to provide and maintain working conditions which are safe, healthy and comply with all statutory requirements and codes of practice. Our Project Team and Service Engineers have extensive experience working within the remit of customer site safety procedures and have, in addition received appropriate safety training (safety passport scheme).

To achieve this, the management at Lab Impex Systems provides all the necessary resources and training to facilitate staff to do excellent work.

## Key Offerings:

- Integrated Quality, Environment, Health & Safety
- Safe working through Nuclear Safety Passport programs
- Documented environmental and relevant legislation
- Training programs in place
